# A Cleaner, More Refreshing Way To Start Your Day

Coway Electronic Bidet - BA15

### Support better health and hygiene

The synergistic effectiveness of superior cleansing and therapeutic massage helps prevent bacteria and disease, and ease recovery from existing conditions.

### Teach your children healthier habits

With Coway's easy-to-use technology, even your children can learn to practice cleaner and healthier personal hygiene.

### Feel more refreshed and confident

The thorough cleansing combination of heat and water provides the best possible solution for your personal concerns.

# Better hygiene for you and your family

The Coway electronic bidet uses modern technology to keep your family healthy and clean. Discover a more refreshing way to start each day.

## Benefits of the Coway Bidet

### Maximum cleanliness

Think about it. You'd never consider cleaning your hands or face simply by rubbing them with tissue. But that's exactly how most people treat their most sensitive and private areas.

### Heightened defense against bacteria

Private areas within skin folds that frequently go untouched by tissue can harbor bacteria. The bidet reaches these areas and helps remove this potential health threat.

### Defense against other common diseases

Bathrooms typically house numerous parasitic and bacterial threats to the urinary and lower gastro-intestinal tracts. The level of thorough cleansing provided by bidet technology can minimize the threat.

# Coway's technology sets the standard

Enjoy the benefits of Coway's technologically advanced design and safety monitoring system.

## Feel completely refreshed everyday

Our unique, advanced hygiene system provides a comfortable and sanitary experience with every visit.

### Air+ water stream

Air bubbles are injected into the water stream to create a softer, gentler feel.

### Anti-bacterial nozzle

Nozzles and nozzle tips are all made with anti-bacterial plastic to ensure a higher degree of cleanliness.

### Twin nozzles

Twin nozzles enhance hygiene and provide better aim and accuracy.

### Permanent mesh filter

Mesh Filter pre-cleans water, for more thorough cleansing.

## Ease of use for greater convenience

The Coway bidet is exceptionally user-friendly, and doesn't require complex installation or operating steps.

### Remote control convenience

All functions are managed from an easy to use, intuitive remote control.

### Water pressure control

Personal control of water pressure ensures the right balance of cleaning power and comfort.

### Toilet seat temperature control

Your comfort is further enhanced with 3 easily adjustable seat temperatures.

### Warm water temperature control

You can ensure consistency by pre-setting the water temperature to the level you desire.

### Easy installation

The slide installation structure is simple to install and is configured to fit any standard sized toilet. No professional help is needed for installation.

### Easy maintenance

With the one-touch detachable hook, removing the bidet from the toilet for cleaning is quick and easy.

## Smart functions take care of the details

Coway's safety functions automatically detect and repair potential problems.

### Automatic shut-down device

Built-in automatic shut-down system ensures no leaking or electric shocks. Water supply valve protects the interior mechanical components when the water pressure is over 1.5 kgf.

### Intelligent low temperature burn prevention

When subjected to even low temperatures for an extended period, burns are a potential hazard. Coway's "Safety-First" bidet automatically reduces toilet seat temperature to prevent discomfort.

### Soft close seat and cover

A light fingertip touch initiates a smooth, controlled closing of the toilet seat and cover to reduce the impact on the toilet bowl ceramics.

## Cost efficient for your family

The Coway bidet was designed to reduce energy usage. Your unit is always ready for use - but its superior technology minimizes energy consumption when it's not in use.

### Energy saving mode

Functions are engaged when the weight of user is detected, and then disengaged when the unit detects signs that it is not in use.

### Designed for your comfort

The ergonomically designed seat is stable, secure and allows for maximum comfort even over an extended stay.
